

CARES

The Church Appraisal Replacement Cost Estimating Service

This pre-paid remote service is a strategic combination of telephone, internet, and direct mail.

We gather comprehensive interior and exterior information about places of worship from the most reliable source: the trustees or church members. By knowing the “right” questions to ask and how to

ask them Veri-Cost Property Appraisal Services can provide accurate valuations quickly and inexpensively for a universe of properties or a single place of worship of any size.

Once accurate internal and external characteristics of the building are obtained a risk specific valuation is calculated using specialized software and a comprehensive replacement cost database.

All results are reviewed under the strictest quality control standards.

Our completed CARES reports can be revalued anytime afterwards so that new coverage limits reflect specific structures, not broad based generic factors that have nothing to do with the individual risk insured.

This approach to estimating church replacement costs is simpler, more precise and provides a greater degree of ongoing consistency and accuracy.

How CARES Works

CARES © is a pre-paid service. You can order the CARES program from our website just click on the purchase link in the menu bar. Once payment is received we will send out our CARES appraisal package complete with instructions. The CARES program also comes with free technical support. If during the forms completion process you are not sure or have a question about some aspect of the data you are collecting just give us an email or call our toll free number and we will walk you through the process. When the completed forms are received in our office we will review them for completeness, if there are any questions we will contact you for clarification. Once the review process is complete we will calculate the replacement cost new of your church using specialized software and a comprehensive replacement cost database. Our CARES report is then delivered via email to you.

What our clients are saying

NOVEMBER 2006

It sure adds up fast! When you see all the pieces in your CARES report it makes sense. Thanks.

DECEMBER 2006

Our church is designated as a historic property, even so your CARES report has been a great service. Thank You.

MARCH 2007

The whole experience was just fine. We appreciated your timeliness and professionalism in producing the report for our use. Yes we would recommend your service to others. Thanks.
